Dear Commissioner:

Prior to examination on the merits, please amend the above-identified application as follows:

In the Claims:

Please cancel claims 1-27.

Please add new claims 28-77 as indicated below.

28. (New) A method of upgrading a software application by merging two modified versions of a common ancestor version, the method comprising:

receiving indications of a first modified version of the common ancestor version and of a distinct second modified version of the common ancestor version, the first modified version including multiple user customizations; and

without user intervention, automatically creating a new upgrade version of the software application by merging the first and second modified versions, by

identifying user customizations in the first modified version that are not present in the second modified version;
